The Directors are pleased to announce the financial results for the quarter ended 31 March 2011.

The Group's turnover and gross margin improved significantly by 18% and 55% respectively against the same period last year.

During the first quarter, the phasing of marketing expenditure was significantly higher than the same period last year, in support of our growth strategy. Coupled with a one-off exceptional charge, this resulted in the drop in operating profit for the period.
